Headlands to Turn	20'
Digger Nose Width, Wide	69.5"
Digger Nose Width, Narrow	63.5"
Tractor PTO HP	145
Base Machine (lbs)	15,000

42" Wide Rear Cross

The rear cross and side elevator gently handle a large volume of potatoes. The optional rear cross spreader rollers evenly distribute the potatoes.

Trailing Coulter Design

Allows more movement and provides the ability to use a variety of disc sizes.

Large Blower System

Utilizing a high volume of air, this harvester is the most efficient in separating potatoes from the vines.
