

The capacity you need to keep moving!

As equipment gets bigger, faster and more efficient, the ability to move, store and simply handle grain becomes especially important. Better farming practices, larger fields and bumper crops all lead to more frequent unloading of your harvester. The difference between making a full round; or harvesting an extra few minutes may be accomplished with more capacity.

There will always be waiting lines at the elevator and breakdowns at the bin. The Crary Big Top will allow you to maximize your uptime while dealing with adversity.

Fits most major brands of harvesters.

- Quick set-up
- Rust resistant full-length hinges
- Folding
- Heavy-duty construction
- Easy view grain level windows
- Color match powder coat paint for extra durability

With two options to choose from the "slant" extension and the "vertical" extension, Crary's Big Top extensions can really "Go Big!"

Crary Big Tops fold down, giving you the clearance and weather protection you need.

We powder coat all components for durability and a seamless look.

“ The Big Top gave me the capacity I needed! ”
Richard W., Lincoln ND
